

LOT 1

Electrical Vehicle Charging Points & Associated Services

Following the Governments pledge to cut carbon emissions by 80% by 2050, the sale of new petrol and diesel cars will be banned by 2035. This framework agreement will assist regional public sector organisations in being prepared for the increase in demand for charging points.

LOT 2

Bus Charging Solutions

There is a requirement for an EVCP infrastructure that accommodates the power requirements and charging profile of fastrack services. Infrastructure will need to be future proofed, and allow flexibility of access and shared infrastructure opportunities to support increased electric bus future transition and wider community uptake.

TOP 3 CUSTOMER QUESTIONS, ANSWERED...

HOW DOES DIRECT AWARD WORK?

Choosing to direct award is always down to the customer to decide.

For full information and criteria refer to the Electrical Vehicle Charging Points & Associated Services user guide. Direct award orders can be placed if the customer can meet any one of the following criteria:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement.
- ✓ The supplier is able to supply the required goods/services within the customers
- ✓ timescales. The supplier scored the highest mark for price/quality in the framework agreement evaluation.
- ✓ Goods/services required are unique/exclusive to one vendor/supplier.
- ✓ Continuity of existing goods/services from an awarded supplier.

Are any of those boxes ticked by the customer? If yes, they can direct award without needing to do a further competition or get three quotes – it's as simple as that!

Please note, the customer only has to tick ONE
